A SALUTE TO DR. CARLOS F.
BARROSO

HON. ROY DYSON

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 12, 1985

Mr. DYSON. Mr. Speaker, I rise today to pay tribute to Dr. Carlos F. Barroso, a dedicated physician and community leader from Hurlock, MD. Tomorrow will mark the 60th year that Dr. Barroso has practiced the art of medicine, and I would like to take this opportunity to call attention to his lifetime of achievement.

Dr. Barroso came to this country from his native Cuba, following the Communist takeover led by Fidel Castro. Dr. Barroso and his family lost much in that revolution, but their pride and will to survive was undaunted by the adversity that surrounded them. They came to the United States in search of a new home, bringing with them their many skills and talents. In 1965, the family's quest for a place to settle ended in Dorchester County, MD, where Dr. Barroso soon set up a family practice in the town of Hurlock.

CONGRESSIONAL RECORD — *Extensions of Remarks*

E 2755

For the past 20 years, the North Dorchester community has been served well by the dedicated Dr. Barroso. All of his patients appreciate his medical competency, his Latin sense of humor, and his warmth of heart. At a time when an increasing number of individuals experience medicine as a series of sterile specialists, Dr. Barroso is the old-fashioned sort of physician, the type whom one can call with any problem, at any time of day. I know that many of us wish there were more physicians like Dr. Barroso, and we all appreciate the years he has spent among us.

I ask all of the Members to join me in saluting this devoted doctor who given his life to the care of others. Certainly, all of us around Dr. Barroso have long appreciated his great work, and we all wish him many years of continued service. ●
